The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol → (meaning "CONTINUED"), or the symbol ▽ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole → signifie "A SUIVRE", le symbole ▽ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

NOTICE.

JOHN GOOCH came to Toronto, Canada, in 1854, as a Bibliographic-Bookseller; having previously procured to order, of Officials of the Parliamentary Library, various scarce and much wanted Books, and been promised their support here in the way of Trade; but, from this time he could not obtain their Notice of his Books or his Catalogue; they had changed the direction of their support in favour of other parties and, he is aware, orders were sent to New-York for Books wanted, which he had brought on and which were left on his hands.

When years had past, he refreighted a great part of his Stock to the U. States, and sold it there by auction at a loss.

A remainder, with additions made from time to time, make the Miscellany described, in this Catalogue.

He has extended the description of Books and Pamphlets so much in favour of those who are interested most in Literature; many enough he hopes they are and liberal enough to buy them all, at fair prices.

The comparison (with contrast) which seemed so sweet and elevating to the theologic Doctor of Medicine, will not the less be held to belong to comparisons that are odious to the equitable minded; for example, the heathen mutes are "unedcated," the Christian mutes "instructed" while they of a finer sense of Religion than this M.D., may be shocked to hear of the Holy Ghost as specifically belonging to this Institution in a way to impart to the pupils transcendent excellencies. The book is highly interesting., however, for the facts of developement of the mind under the disadvantages in question.
